1. How to annotate table cell efficiently or even automatically: **TableCell dataset**

Automatically extract and annotate table cells

Handle the tables with partial or even no lines

	# images	# cells
Train	3684	122354
Val	1578	47652
Total	5262	170006

TableCell dataset statistics

Electronic sample with partial lines

Scanned sample with complete lines

2. How to improve the performance of table structure decomposition: **Table Projection Module**
